

FINISH THOMPSON INC.

Sealless, High Performance Drum Pump

Unique double suction impeller provides high flow and high head. Handles acids, caustics, chemicals and flammables[†].

<u>Features:</u> Polypropylene, PVDF, 316SS tubes Interchangeable with motors Up to 2000 cP with M58P/M59P motors FDA-compliant (PFS only)

Applications: Acids, bases, solvents[†], water treatment chemicals, cleaners, plating solutions, kidney dialysis solutions, diesel exhaust fluid (DEF)/AdBlue

Tube Lengths 27" (69cm) **40**" (102cm) **48**"

27" (69cm), 40" (102cm), 48" (122cm), 60" (152cm), 72" (183cm)

¹When pumping flammables or combustibles, use explosion proof electric or air drive motors on stainless steel tubes with static protection kit.

**All testing performed with water at 68°F (20°C). Actual performance can vary by +/- 10%. Actual performance will decrease with increased fluid viscosity and specific gravity.

*Suitable for 230V, 60 Hz. Includes a NEMA 6-15 plug.

**Motor suitable for hazardous areas that do not require independent certification.

***An air motor is a non-electrical device meaning possibility of explosion from igniting flammables/combustibles is reduced. Air motor performance will depend upon user's system setup. Note: ATEX versions of some motors are available. Please see PF Series ATEX flyer or contact Finish Thompson for more information.
